GROSS REGIONAL DOMESTIC PRODUCT OF THE PHILIPPINES HIGHLIGHTS FOR 2013

Philippine economy posts 7.2 percent growth

The Philippine economy posted a 7.2 percent growth in 2013, outpacing its 6.8 percent growth in 2012, as favorable business environment paved the way for the production of more goods and services cushioning the negative effects of the natural disasters that hit the country during the year.

The accelerated growth of Industry from 7.3 percent in 2012 to 9.3 percent in 2013 and the sustained growth of Services from 7.4 percent to 7.2 percent fueled the faster growth of the economy. Agriculture, Hunting, Forestry and Fishing (AHFF) was not able to surpass its minimal 2.8 percent growth in 2012, posting a measly 1.1 percent growth in 2013, making its contribution to the economy's growth almost insignificant.

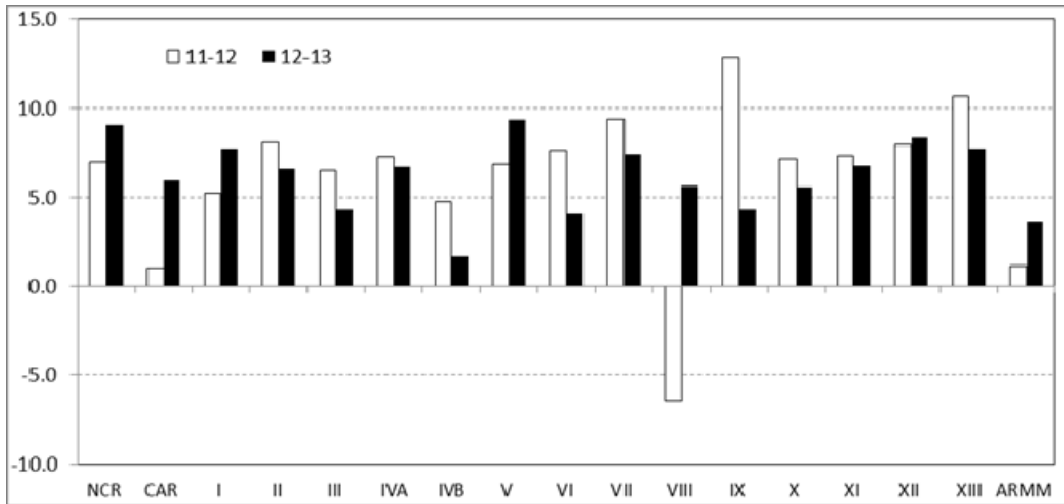

The major subsectors that contributed to the growth were the following: Manufacturing which grew by 10.3 percent; Financial Intermediation, 12.6 percent; Real Estate, Renting and Business Activities (RERBA), 8.7 percent; Trade and Repair of Motor Vehicles, Motorcycles, Personal and Household Goods, 5.7 percent; and, Public Administration and Defense; Compulsory Social Security (PAD), 3.8 percent.

Bicol Region's economy posts fastest growth in 2013

Bicol Region's economy recorded the fastest growth among the country's 17 regions in 2013. It grew by 9.4 percent in 2013, surpassing its growth of 6.9 percent in 2012. It was followed by: National Capital Region (NCR) with 9.1 percent; SOCCSKSARGEN, 8.4 percent; Caraga, 7.8 percent; and Ilocos Region, 7.7 percent.

On the other hand, the economy of MIMAROPA posted the lowest growth rate at 1.7 percent in 2013, slower than its 4.8 percent in 2012. The Autonomous Region in Muslim Mindanao (ARMM) was second lowest with 3.6 percent in 2013 – an improvement from its 1.1 percent growth in 2012. Western Visayas closely followed with 4.1 percent growth in 2013 which is relatively lower as compared to its 7.7 percent growth in 2012.

**Growth Rates of Regional Economies:
2011-12 and 2012-13, at Constant 2000 Prices**

Seven regions record accelerated growth

Out of the country's 17 regions, seven regional economies recorded accelerated growth from 2012 to 2013.

The economy of Eastern Visayas rebounded from a 6.4 percent contraction in 2012 to a growth of 5.7 percent in 2013. Other regions which recorded faster growth in 2013 were: NCR, from 7.0 percent to 9.1 percent; Cordillera Administrative Region (CAR), from 1.0 to 6.0 percent; Ilocos, from 5.2 to 7.7 percent; Bicol, from 6.9 to 9.4 percent; SOCCSKSARGEN, from 8.0 to 8.4 percent; and, ARMM, from 1.1 to 3.6 percent.

Zamboanga Peninsula's economic growth, on the other hand, suffered the biggest deceleration - from a growth of 12.9 percent in 2012 to a 4.3 percent growth in 2013. Other regions that slowed down in 2013 were: Cagayan Valley, from 8.1 to 6.6 percent; Central Luzon, from 6.5 to 4.3 percent; CALABARZON, from 7.3 to 6.7 percent; MIMAROPA, from 4.8 to 1.7 percent; Western Visayas, from 7.7 to 4.1 percent; Central Visayas, from 9.4 to 7.4 percent; Northern Mindanao, from 7.2 to 5.6 percent; Davao Region, from 7.4 to 6.8 percent; and, Caraga, from 10.7 to 7.8 percent.

NCR continues to account for the largest share of the national economy

NCR continued to have the largest share of the country's total economic output with a 36.3 percent share in 2013, slightly higher than its 35.7 percent share in 2012. It was followed by CALABARZON with a share of 17.4 percent and Central Luzon with 9.0

percent. On the other hand, ARMM accounted for the lowest share to the country's Gross Domestic Product (GDP) at 0.7 percent.

In terms of contribution to the national GDP growth rate of 7.2 percent in 2013, NCR contributed the highest, at 3.2 percentage points; followed by CALABARZON with 1.2 percentage points; and Central Visayas with 0.5 percentage point. The economy of CALABARZON registered a decelerated growth of 6.7 percent in 2013, slightly lower than its 7.3 percent growth in 2012. The steady performance of Services and improved growth of AHFF cushioned the effect of the slower growth of Industry sector to the region's performance.

Industry accounted for the largest share of the region's total output at 61.1 percent, followed by the Service sector at 32.7 percent and AHFF at 6.1 percent.

Industry slowed down from a 7.3 percent growth in 2012 to a 6.3 percent growth in 2013 due to the slower growth of Construction and the contraction of EGWS. From a double digit growth in 2012, Construction decelerated to 8.1 percent in 2013. EGWS suffered a reversal - from a 3.9 percent growth in 2012 to a 1.8 percent contraction in 2013. Western Visayas' economy slows down as AHFF slumps

The economy of Western Visayas slowed down from 7.7 percent growth in 2012 to 4.1 percent growth in 2013. This was largely attributed to the slump in the AHFF and the slower growth of the Industry and the Service sectors.

Services accounted for the largest share of the region's economy at 57.9 percent, followed by AHFF at 23.5 percent and Industry at 18.6 percent in 2013. The percentage share of Services and Industry to the total output of the region increased while AHFF's share decreased.

Services grew at a slower pace from 7.7 percent in 2012 to 5.7 percent in 2013 due to the decelerated growth of the following: TSC from 8.2 percent to 4.5 percent; Trade and Repair from 11.7 percent to 5.5 percent and PAD from 5.3 percent to 2.5 percent. Other Services, on the other hand, posted a growth of 9.5 percent, more than twice its previous year's growth of 4.6 percent. RERBA, however, suffered a reversal from a 6.1 percent growth in 2012 to a negative 3.6 percent in 2013. The growth of the RERBA did not offset the slump in the Ownership of Dwellings brought about by Typhoon Yolanda in the last quarter of 2013 that eradicated about 230 thousand houses in the region.

AHFF sank deeper to negative 3.3 percent brought about by the hefty decrease in sugarcane and palay production. Agriculture and Forestry suffered a reversal in growth from 0.7 percent in 2012 to negative 3.1 percent in 2013. Likewise, Fishing further sank from negative 2.6 percent to negative 4.0 percent.

This was a deceleration, however, from the 9.4 percent growth recorded in the previous year brought about by slower growths in Industry and Service sectors.

Services comprised more than half of the region's GDP at 55.6 percent, followed by Industry at 37.7 percent and AHFF at 6.8 percent.

The Service sector decelerated from 9.1 percent growth in 2012 to 6.9 percent in 2013. All subsectors registered decelerated growths, except for Financial Intermediation which accelerated from 9.1 percent in 2012 to 13.7 percent in 2013. Trade and Repair, the biggest contributor to the sector's output, posted a slower growth of 5.1 percent, from 12.1 percent in 2012. Other Services and RERBA grew by 5.2 percent and 6.9 percent, respectively, due to the strong performance of tourism and business process outsourcing industries in the region. In addition, typhoon Yolanda resulted to increased visitor arrivals in Metro Cebu, including international relief workers, who made the city their operations center and the jump off point to disaster stricken areas in the Visayas.

The Industry sector slowed down from a 12.0 percent growth in 2012 to 9.7 percent in 2013. Mining and Quarrying, Construction, and EGWS posted decelerated growths of 5.0 percent, 2.1 percent, and 4.3 percent, respectively. Eastern Visayas economy rebounds, brushes off effects of Typhoon Yolanda

The economy of Eastern Visayas rebounded from a 6.4 percent contraction in 2012 to a 5.7 percent growth in 2013 despite Typhoon Yolanda which hit the region in November 2013. The growth was largely due to the acceleration in Manufacturing subsector which recovered from previous year's contraction.

The Industry sector accounted for the biggest share of the region's economy at 41.1 percent, followed by Services at 38.9 percent. AHFF shared the smallest at 20.0 percent.

The Industry sector made a turnaround from an 18.8 percent contraction in 2012 to a 14.1 percent growth in 2013. This was attributed to the accelerated growth in Manufacturing, the biggest contributor among the subsectors, which rebounded from a 40.4 percent slump in 2012 to a 33.5 percent growth in 2013 due to the strong performance of manufacturing of basic metals, a major export product of the region. Construction posted a slower growth of 9.2 percent in 2013, from a 29.0 percent growth in the previous year. On the other hand, EGWS and Mining and Quarrying posted declines of 6.5 percent and 22.8 percent, respectively.

Financial Intermediation posted an accelerated growth of 14.6 percent in 2013, from 13.5 percent in 2012 on account of the strong performance of banks, non-banks and insurance. Other Services also recorded a growth of 10.3 percent in 2013 – higher than its 4.2 percent growth in the previous year. Meanwhile, TSC, and, Trade and Repair registered slower growths of 7.6 percent and 6.2 percent, respectively. On the other hand, RERBA dropped by 18.4 percent mainly due to the decline in the number of dwelling units that were damaged by Typhoon Yolanda.

AHFF further declined from negative 3.0 percent in 2012 to negative 6.6 percent in 2013. Agriculture and Forestry sank deeper to negative 4.5 percent in 2013, from negative 2.0 percent in 2012. This was due to decreases in production of major crops such as palay, coconut, sugarcane and abaca. There were also declines in livestock and poultry production particularly, hog and chicken. Fishing further slipped from negative 6.3 percent in 2012 to negative 13.3 percent in 2013 due to the decline in fishery production.

The Industry sector was the biggest contributor to the region's growth at 5.4 percentage points. Services contributed 1.8 percentage points. AHFF, on the other hand, pulled down the growth by 1.5 percentage points.

Zamboanga Peninsula's economy decelerates as Industry and Service sectors slow down

The Industry sector decelerated from 31.2 percent in 2012 to 4.3 percent in 2013. Manufacturing, which accounted for 26.2 percent of the region's total economy, suffered a reversal in growth from 35.2 percent in 2012 to negative 0.1 percent in 2013 due to the decrease in food production. Services remained to have the largest share in the region's economy at 41.9 percent. Meanwhile, Industry and AHFF had a share of 33.8 percent and 24.3 percent, respectively.

Services grew at a slower pace in 2013 at 5.9 percent as compared to its 8.8 percent growth in the previous year.
